1.1 Introduction

As a **Timeline Administrator**, it is your duty to supervise other Harmonics employees, as well as ensure that the **Timeline remains steady with no anomalies**. We value your dedication to preserving the fate of the multiverse.

1.2 Harmonics Information

As one of the most technologically advanced facilities in the galaxy, Harmonics and its employees are dedicated to protecting and managing the fate of the multiverse, and its timeline.

2.1 Timeline Malfunctions

All anomalies must be amended immediately; **a Timeline collapse will occur if an anomaly is not repaired.** In the event of a Timeline collapse, follow the **TIME Protocol.**

2.2 TIME Protocol

Timeline Interference Management Emergency (TIME) Protocol:
where the **Timeline resets** to a point where you, the Timeline Maintenance Technician, are able to successfully **avert the anomaly before it can happen.**

2.3 Raccoons in the Workplace

Local raccoons often sneak into the Harmonics facility and cause trouble such as **chewing through wires** or **eating left out food**.

Consult the following list of food items that are safe to leave out:

Raccoons will not eat
Citrus
Salt
Cheese
Vegetables
Caramel

Note: Drones patrolling with “**Code Grey**” warning signifies a raccoon in the facility.

2.4 Safety Symbols

Anomaly
detected

Timeline
collapsing

Timeline
reseting
